3. WALTHAM PEDIATRIC GROWTH VELOCITY & NUTRITION

8-Week Weight: 5.10 lbs (2.31 kg) — WALTHAM 50th Percentile Curve
Target Adult Weight: 24.0 - 26.0 lbs
Current Feed: Royal Canin French Bulldog Puppy (380 kcal/day split in 3 meals)
Current BCS: 4.5 / 9.0 (Ideal Lean Condition)

4. FRENCH BULLDOG CLINICAL CARE PROTOCOL

• Thermal Safety & Airway: French Bulldogs cannot dissipate heat. Never expose Winston to temperatures over 78°F (25.5°C). Always use a chest harness (never a neck collar).

• Skin Fold & Tail Pocket Wipes: Clean facial wrinkles and tail pocket 3x weekly with chlorhexidine wipes to keep folds dry and prevent dermatitis.

• Spinal Protection (IVDD Ramps): Avoid letting Winston jump on/off high beds or sofas. Provide ramps or pet stairs to prevent intervertebral disc disease.

Ø<ß™þ DIGITAL "PUPPY AUDIO PASSPORT" TRANSCRIPT (Dr. Emma Foster, DVM)

"Hello and congratulations! Welcome to Winston's official digital health passport from Elysian French Bulldogs and Canine Health OS. Winston is an 8-week-old Blue Fawn French Bulldog. His parents, Bella Royale and Champion Pierre, have tested clear for OFA Patellar, Cardiac, Eye, and Hereditary Cataracts. Winston is eating 380 calories per day split across 3 meals. Please keep Winston cool in warm weather, use a chest harness, and schedule his 12-week DHPP booster for October 31st!"
