SUBJECT: DogHealthOS Breeder Pro Suite & Puppy Audio Passports

Dear [Breeder Name / Kennel Team],

As an ethical dog breeder dedicated to improving breed health, genetic longevity, and placing thriving puppies with responsible families, you know that a puppy's health journey extends far beyond the whelping box. I am writing to invite [Kennel Name] to join the DogHealthOS Breeder Pro Program—an elite digital health suite designed specifically to give professional breeders unmatched litter tracking tools, genetic transparency, and lifelong puppy buyer support.

UNMATCHED FEATURES TAILORED FOR PROFESSIONAL BREEDERS

1. Breeder Pro Suite & WALTHAM Growth Velocity Curves

Track entire litters (Dam, Sire, Whelping Date, Individual Collar Colors) with daily weight trajectory curves to detect fading puppies early and ensure optimal growth velocity.

2. Digital "Puppy Audio Passport" for New Buyers

When your puppies go to their forever homes at 8-10 weeks, give buyers a co-branded Puppy Audio Passport with spoken health reports voiced by Dr. Emma Foster, DVM.

3. Embed Sire & Dam Health Clearances (OFA / PennHIP / DNA)

Elevate buyer trust by embedding Sire and Dam health clearances (OFA Hip/Elbow scores, Cardiac, Eyes, DNA panels) directly into exported Breeder Health Dossiers.

4. Lifetime Buyer Connection & Return Prevention

Prevent puppy returns caused by owner anxiety with continuous feeding portion calculations, BCS tools, and milestone reminders tied directly to your kennel guidelines.

EXCLUSIVE BREEDER PROGRAM BENEFITS

- 100% Free Access to Breeder Pro Suite: Manage unlimited litters, dams, and sires without fees.
- Co-Branded Buyer Onboarding: Custom welcome screens featuring your kennel logo and health guarantees.
- Recurring Affiliate Revenue: Earn 20% commission on optional premium care upgrades chosen by your buyers.

I would love to set up a brief 10-minute video walkthrough to demonstrate the Breeder Pro Suite and show you a sample Puppy Audio Passport customized for [Kennel Name]. Please let me know a convenient time to chat.
