SUBJECT: **Strategic Affiliate Partnership Proposal: High-Intent Lead Integration**

Dear [Partner Name / Business Development Team],

I am writing to propose a high-converting affiliate partnership between [Pet Insurance Company Name] and Canine Health & Longevity OS (DogHealthOS v1.0)—a personalized canine longevity, biological age calculator, and preventive health platform built for health-conscious pet owners.

Unlike traditional cold advertising channels (Google Search Ads, Facebook retargeting) where acquisition costs are skyrocketing and quote form abandonment exceeds 85%, DogHealthOS connects your insurance policies with pet parents at the exact moment they are actively planning their dog's health, evaluating genetic risks, and scheduling care.

HOW WE WILL PROMOTE [INSURANCE COMPANY NAME] IN OUR APP

Your insurance products are natively embedded directly into our clinical workflows as essential protection:

1. Breed Genetic Vulnerability Alert Card

"German Shepherds have a 21% lifetime incidence of hip dysplasia. Ensure [Pet Name] is 100% covered with [Insurance Company]."

[Button: Get Instant Quote starting at $28/mo]

2. Pet Medical Vault Security Header

"Pair your digital medical records with verified emergency & illness coverage from [Insurance Company Name]."

[Button: Compare Coverage Options]

3. Veterinary Milestone & Checkup Scheduler

"Ensure 100% of [Pet Name]'s diagnostic bloodwork and emergency visits are reimbursed with [Insurance Company Name]."

[Button: View Pre-Approved Policies]

4. Exported Clinical PDF Dossier Attachment

"Dedicated 'Protection & Insurance Summary' page attached to exported veterinary PDFs with trackable QR code."

OUR FRICTIONLESS 1-CLICK QUOTE TECHNOLOGY

DogHealthOS transmits pre-filled pet data directly to your quote landing page via deep-linked API parameters:
https://www.yourinsurance.com/quote?ref=doghealthos&breed=German+Shepherd&age=2.5&weight=68&zip=90210

When the user taps 'Get Instant Quote', they land on your website with 100% of fields pre-filled (Breed, Age, Weight, Zip). Quote completion time drops from 3 minutes to under 15 seconds, increasing conversion rates by 3x–5x.

PROPOSED AFFILIATE BUSINESS TERMS

- Cost Per Acquisition (CPA): Fixed referral fee for every completed policy enrollment.
- Cost Per Lead (CPL): Fixed payout per completed pre-filled quote request.
- Revenue Share: Ongoing percentage of monthly policy premiums for the lifetime of the account.

NEXT STEPS & DEMONSTRATION

I would welcome the opportunity to schedule a brief 15-minute video call this week to demonstrate our live application and review custom integration mockups featuring [Insurance Company Name].

Please let me know a day and time that works best for your schedule.

Sincerely,
